

**INDIA ATTACKED** — Attacking Communist Chinese troops continue their advance into India on two widely separated fronts, knocking out Indian defense outposts on their way. Defense Minister V. K. Krishna Menon has announced in New Delhi. The Chinese, who throw upward of 20,000 troops into massive "human wave" attacks, advanced in the Ladakh area

In the Northeast Frontier Agency (2), Chinese troops continued their push across the McMahon Line — border of India and Tibet — taking at least three positions.

## India, Chinese in Battle on North Frontier

By HENRY S. BRADSHAW

NEW DELHI, India (AP)—Red China charged today that Indian troops crossed the McMahon Line Frontier and declared that Chinese forces, fighting in self-defense, no longer will respect the 40-year-old Himalayan boundary mark.

Peiping radio coupled the charge with an offer to negotiate with India for a peaceful settlement of the bloody border conflict which Prime Minister Nehru said Monday threatens his country's independence.

On the fourth day of hard battling which has pushed the Indians steadily back, an Indian spokesman indicated Nehru has rejected a Librarian proposal of mediation by African-Asian powers.

## Teachers at Yerger for 5 Mill Tax

The faculty and personnel of Hope Negro Schools endorse and support the Hope School Board in its request for a 5 mills increase for additional money for needed improvements in the Hope Schools. "The following statement was issued: The North Central Association has 'given' advice and in some instances the school has been warned of conditions not acceptable.

"We do not want to lose our rating. We think the citizens of Hope have pride in the present status of our schools and also would like to improve them.

"The daily attendance in our schools has increased over that of a few years ago. Last year with an average number of 1773 students belonging in school each day, our average daily attendance was 1083. Approximately 90 students absent each day, if equally distributed among 38 teachers would average less than 3 students absent per day. We were advised on 6 high school teachers and 4 elementary teachers who had an over-load of students. We need more classrooms and more teachers.

"We do not have the room or equipment to offer physics. The class in Chemistry has to be limited and one of the Biology classes is taught in another room because the science room is occupied all day.

"The present two-story building housing the home economics department is inadequate in space and equipment. Modern electrical appliances can be provided for training the girls without cost if we had the building suitable to install them. There is no room for the girls to store their individual material, thread or other personal supplies. In this frame building we have more than \$5,000 worth of band, choir and commencement uniforms.

"There is a need for at least four classroom and a cafeteria at the Hopewell Elementary School. The upstairs is being used for a classroom and one teacher has been transferred to a temporary room on the high school campus. The above classrooms are far below standards as well as the two classroom attached to the two story building.

"Approximately 250 individual desks are needed for study hall and classroom use.

"The North Central Association in its evaluation last year advised us on the shortage of Library books. At this time we were 2,300 books short of the number required for our enrollment. To date approximately 1,000 of the 2,300 books have been ordered and received. With our increase in enrollment at the high school level I am certain this year's report will find us at least 1,500 books short of NCA requirements.

"There is a definite shortage of adequate up-to-date instructional material and supplies in most every area of classroom work, elementary through twelfth grade. Any teacher may do a better job with modern up-to-date aids that can be used in her instruction to the students.

"We invite all citizens to come by our schools and look in upon us.

## Florida Is Bristling With Activity

MIAMI, Fla. (AP)—Florida—bristling with air bases and boasting big naval operations at Key West, Jacksonville and Pensacola—throbbed with activity today to back up President Kennedy's blockade of Cuba.

At Key West only 90 miles from Cuba, naval vessels had put to sea and the county granted permission for an Army unit to bivouac in the local baseball park. A new control tower, previously unneeded at the Key West airport because only one commercial flight goes into and out of the city daily, was rushed to completion in less than two days. Boca Chica field at the naval air station is a separate operation.

Soldiers seen earlier at Sugarloaf Key, a few miles from the city, had disappeared. Medical and surgical supplies were reported to be stockpiled at the Navy base.

## GOPs Issue Statement on Policy

T. O. Porter, Hempstead County GOP chairman, issues the following statement:

"The Republican party of Hempstead County will today begin an advertising campaign in the Hope Star and on KXAR that will stress the benefits of a 2-party system and why we believe every Arkansan should have a choice of principles and platforms to vote for. Despite all the claims that we are represented by 'The Strongest Team in America' we are still far too close to the bottom on all economic educational ratings to really believe this statement.

"The Democrats maintain that it would be tragic to develop a 2-party system in Arkansas because we might lose some of our so-called seniority in Congress. We would like to point out that Arkansas has lost nearly half of its representation in Congress in the last ten years under this 'strongest team in America' Rule. Has the loss of these three Democratic Congressmen caused the individual Arkansan to suffer? Certainly not... but were it not for the efforts of Republican Winthrop Rockefeller as head of the AIDC in bringing hundreds of industries to Arkansas we might even be down to one or two congressmen today.

"The Hempstead County Republican leader and candidate have not criticized office holders; we have only attacked the principles for which they stand. We are seeking only to offer the people of Arkansas a chance to vote for principle and platforms and stop being taken for granted by the Democrats locally and Nationally. We want a system of checks and balances whereby office holders account to the voter for their decision and how they spend your tax dollars. We hope in the future to see printed audits of all public funds. We might add that we are in accord with our national party and say so gladly. The advertising we do will be apud by local interested citizens whose only goal is better, more efficient government."

# Blockade of Cuba Step Toward a Nuclear War, Is Soviet Warning to U.S.

## Huge American Fleet Fans Out Around Cuba

By FRED S. HOFFMAN

WASHINGTON (AP)—A mighty U.S. war fleet fanned across the Atlantic today prepared to intercept a large number of Soviet cargo ships, possibly carrying more missiles to Communist Cuba.

The first contact could come by nightfall and with it the first test of President Kennedy's newly proclaimed arms blockade of Fidel Castro's Cuba.

Large numbers of Soviet ships were reported moving in the direction of Cuba, but not in convoy. American Navy vessels sailed Monday from the Puerto Rico area and East Coast ports.

Their orders: Halt, stop, search—and, if necessary—sink vessels which try to avoid inspection. Ships of any nation—Communist and non-Communist alike—will be stopped by U.S. Navy ships if they are bound for Cuba.

A Defense Department spokesman made it quite clear that force will be used—regardless of the nationality of a ship—if it refuses to halt or follow an order to change course away from Cuba.

While mounting this blockade to keep offensive weapons such as missiles and bombers out of Cuba, the United States looked to its powder elsewhere—just in case the Communists should try some counter-move.

## UN Council in Emergency Meet

By TOM HOGE

U. S. Security Council was summoned to an urgent meeting today to take up a U.S. demand that the council call for the withdrawal of all offensive weapons from Cuban soil.

The meeting was set for 2 p.m. (EST) by Soviet delegate Valeriy Z. Zorin current council president, after consulting with the other 10 members. The session was requested Monday night by U.S. Ambassador Adlai E. Stevenson.

The council also will have before it a complaint from Cuba asking for consideration of "the act of war unilaterally committed by the government of the United States in ordering the naval blockade of Cuba."

## Hester Freed on Bond of \$5,000

A charge of first degree murder was filed today in Hempstead Circuit Court against Robert N. (Bob) Hester, 37, of McNab, in connection with the fatal shooting Sunday of Phillip Knighton, 41, also of McNab. The charge was filed by Prosecuting Attorney Royce Weisenberger.

Late yesterday Circuit Judge Lytle Brown fixed Hester's bond at \$5,000. He made the bond late last night and was released.

The shooting occurred in a field near the Yellow Creek Club. Deputy Sheriff Herbert Griffin said Hester told him that Knighton pulled a knife, following an argument, and tried to run him down from horseback. Hester said he shot Knighton three times with a 38 cal. revolver.

Later the same morning Hester gave himself up to Constable Jim Moore at Fulton. He was held in Hempstead County jail on open charge until released on bond last night.

## Blockade Is Great Crisis to World

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The Soviet Union and the United States headed into a collision course today as U.S. Navy ships moved to clamp an arms blockade on Cuba and halt the Soviet conversion of the island into a nuclear missile base.

A direct confrontation between the two great powers could come by nightfall, in the judgment of Washington officials.

The crisis was probably the greatest since World War II. The full scope of the danger broke upon the world Monday night when President Kennedy announced the establishment of Soviet missile bases in Cuba and disclosed a seven-point program of U.S. action starting off with a naval blockade to halt the flow of any more offensive arms to Cuba.

He called his move the imposition of a strict quarantine, avoiding official use of the word blockade. But administration officials said that in practical effect there was no difference.

There was no immediate official reaction from Moscow.

Havana radio said early today that all of the island's military forces had been mobilized and Prime Minister Fidel Castro would address his nation later in the day.

Kennedy is depending on crisis diplomacy to pull the world back from the brink of conflict. Shortly before addressing the nation by television and the world by radio he addressed a personal message to Soviet Premier Khrushchev to refrain from any step which would make the situation worse.

The letter, along with an advance copy of his speech, was handed by Secretary of State Dean Rusk to Soviet Ambassador Anatoly Dobrynin at the State Department shortly before Kennedy went on the air. A copy of the letter was delivered in Moscow too.

The message opened the way for a Kennedy-Khrushchev meeting on the Cuban crisis by asserting that the United States is always ready for peaceful negotiations. Officials said it did not specifically suggest such a meeting. On the diplomatic front—as on the Cuban blockade front—it put the next move up to Khrushchev.

Even as the President spoke, U.S. warships were maneuvering in the Cuban area, taking up stations for interception of all in-

## Bulletin

LONDON (AP)—Britain today came out in full support of President Kennedy's arms blockade of Cuba. A statement said the basing of offensive nuclear weapons in Cuba was provocative.

MIAMI, Fla. (AP)—Airline flights to Cuba were suspended today until further notice.

The Cuban government notified Pan American Airways and KLM, the only lines with Havana flights, that the airport there was closed to civilian traffic.

Pan American had two flights daily, and KLM, two weekly. They brought about 1,600 Cuban refugees weekly.

NEW DELHI (AP)—Chinese Communist troops have widened their bridgehead in northeastern India and are developing a threat to the important monastery town of Towang, the Indian Defense Ministry said today.

## Free World Is Behind U.S. Action

By DENNIS NEEDLE

LONDON (AP)—The British came out in full support of President Kennedy's arms quarantine of Cuba.

The first Soviet reaction was a warning that the United States was "taking a step along the road of unleashing a thermonuclear world war."

The tough policy proclaimed by Kennedy roused a mixture of praise, anxiety and some criticism in Western Europe and heated anger in Communist capitals.

Britain's backing of the President was strong and unequivocal. Prime Minister Harold Macmillan's government charged the basing of offensive nuclear weapons in Cuba was provocative.

The British delegate on the United Nations Security Council Sir Patrick Dean, has been instructed to support the United States request to end this danger, a government statement said.

The vigorous expression of British support means the government will advise British ships to cooperate with the Americans in the operation of the arms blockade.

The decision represented an almost unprecedented break from Britain's tradition of refusing to respect peacetime blockades, which the English regarded as violating the freedom of the high seas.

Radio Prague said two Czechoslovak ships, one now unloading in Cuba and the other bound for Cuba, might be among the first to run up against the U.S. blockade. The broadcast did not specify the cargoes.

Czechoslovakia has been one of the chief suppliers of arms to the Fidel Castro regime.

The Czech Communist party organ Rude Pravo declared "no sovereign country can tolerate its ships being controlled by another power."

"President Kennedy's unreasonable attitude cannot be excused. It might have incalculable consequences. The U.S. government should realize that Cuba does not stand alone and that an attack on Cuba might trigger unforeseeable chain reaction," Rude Pravo said.

West Berliners braved themselves, fearing they would be the target of a Communist counter-stroke against the U. S. quarantine of offensive arms shipments to Cuba.

Kennedy spoke too late for comment on the Soviet press the morning.

Moscow radio in a broadcast shortly before Kennedy's speech charged: "Washington is once again raising its armed fist over Cuba and once again threatening the peace and tranquility of the United States fleet and air forces."

## Action Is One of Aggression, Moscow Says

By GEORGE SYVERTSEN

MOSCOW (AP)—The Soviet government gave "a serious warning" to the United States today, and said President Kennedy's quarantine of Cuba was a step toward thermonuclear war.

It reaffirmed in a statement that Soviet nuclear rockets are only a defense against aggression.

The government statement broadcast by Moscow radio and carried by the Soviet news agency Tass denounced as hypocritical President Kennedy's charge that Cuba had been turned into a Soviet base for offensive missiles and weapons.

Speaking of Kennedy's quarantine, the statement said:

"The peoples of all countries must be clearly aware that, undertaking such a gamble, the United States of America is taking a step along the road of unleashing a thermonuclear world war. Cynically flouting international standards of conduct of states and the principles of the charter of the United Nations, the United States usurped the right, and announced this, to attack ships of other states on the high seas, to engage in piracy."

Shortly after the government statement was released, U.S. Ambassador Roy Kohler was called for a meeting at the Foreign Ministry to officially receive the Soviet statement.

## Richardson in Jail in Lieu of Bond

Charles Richardson, about 20, charged with rape of a 13-year-old girl here Saturday, Oct. 20, remained in Hempstead County jail today in lieu of \$5,000 bond which was set by Circuit Judge Lytle Brown late Monday.

Richardson was arrested by City Police at his home late Saturday on complaint of the girl's father. The girl lives in the same neighborhood. Officer's said an examination by a local physician confirmed the girl had been assaulted.

A charge of rape was filed Monday by Prosecuting Attorney Royce Weisenberger.

## Latin Nations Are Solidly Behind JFK

By BEN F. MEYER

WASHINGTON (AP)—President Kennedy's call for a military quarantine of Cuba received almost unanimous backing today from the 20-nation Organization of American States.

Only Bolivia withheld support, and that was only because its ambassador had not yet received instructions from his government. "There was every expectation that the final vote would be unanimous in favor of the U. S. stand."

In advance of a formal vote on a U.S. resolution, 14 member states spoke in favor of the U.S. position.

Other Latin-American ambassadors waited their turns to speak. But Mexico and Brazil, considered most likely to object to the U. S.

### Her In-Laws Ganged Up

Dear Helen: I am married five years and have two wonderful children. Though a devoted wife and mother, my husband, far from appreciating this, is very cruel. He and his relatives gang up on me. When they are present he crosses every word I speak, takes a most inhuman attitude toward the children, and sometimes assaults me physically. The last time this happened I suffered a miscarriage.

The reasons his relatives give for disliking me are my appearance, my intellectual ability, and the fact that I work as well as take care of the house.

I have always been nice despite their resentment of me, pray for them and am forgiving but nevertheless anxious and fearful of future tragic incidents. —Worried

Dear Helen: I am an 18-year-old girl who has been going steady with a boy of 22. He takes me out but has yet to put foot in my home during those months we've gone together. Should I invite him to my house for an evening, or should he invite himself? —Shy

Dear Helen: The parents of any girl who thinks enough of a boy to date him steadily should make it their business to know not only that boy but his family. The same holds for the boy's parents. Ask your mother to write or phone his mother and suggest — on the basis of your friendship — that the two families get better acquainted. Once the ice is broken, invite the boy to your home for an evening.

Dear Helen: Your column helps keep my marriage on an even keel. My husband and I enjoy and profit by your excellent, down-to-earth advice. We regard it as a helping hand and are now celebrating our 12 years together. Although there is 17 years difference in our ages, we find a great deal of happiness in married life, not the least of which are four beautiful, healthy children who love us as much as we love them. ## School Lunch Week Being Observed

The school children of Hope are among 200,000 students who were served the same lunch menu in some 953 Arkansas schools during National School Lunch Week, October 14-20, 1962.

This program means improved health and better accomplishment in school, says Mrs. N. W. Denty, local school lunch director. Nationwide the school lunch program is a billion dollar business, reaching more than 14 million school children daily in the United States.

Mrs. Denty reports that this food market amounts to \$6,507,405 a year in Arkansas, and \$2,473 in Hope.

The food donations of the Federal Government included \$654,067 pounds of ground beef, 969,230 pounds of turkey and a variety of canned fruits and vegetables. Each of the 125,332 lunches in Hope included at least one half-pint of milk purchased from local dairymen. This makes the school lunch program an important part of the local economy.

The 15 employees report to their school lunch kitchens early each school morning and hustle about the business of preparing meals planned according to Government specifications to supply one third of each child's daily food needs. Lunches are available for 25c in elementary schools and 30c in secondary schools.

These prices are made possible by the help of the Federal cash reimbursement of 56¢ a meal and Federally donated foods amounting to about 6¢ per meal.

At these prices the tasty, attractive school lunches are the best value for the money and far superior — nutritionally — to the average home-packed lunch, Mrs. Denty says.

President Kennedy recently proclaimed October 14-20 as the first annual national commemoration of the school lunch role in keeping this year's celebration home, is leaflets. —M. J. Kroft, Fontana, Calif.

Dear Mrs. Kroft: I print your wonderful letter in the hope that other couples who have been helped by this column will speak up. Most of the letters I receive are from those in trouble — yours is a refreshing change of pace. Thank you for it.

## Students in Solar Cell Experiments

Advanced high school science students in Hope and Bodcaw are building a solar cell in experiments that bring to reality an age-old dream of scientists harnessing the energy of the sun.

The solar energy experiment is one of two new high school teaching units developed by scientists at Bell Telephone Laboratories and made available by Southwest Bell-Arkansas.

A second unit, on magnetism, includes a teacher and student manuals with demonstration materials that enable local high school students to observe the behavior of magnetic domains under an applied magnetizing force. It is the first time this experiment has been made possible

the Nation healthy and strong. "School Lunch Serves the Nation."

outside university or industrial research laboratories. J. D. Browning, Southwest Bell-Arkansas engineer recently demonstrated these new science teaching units for several science teachers and administrators in the Hope-Bodcaw area.

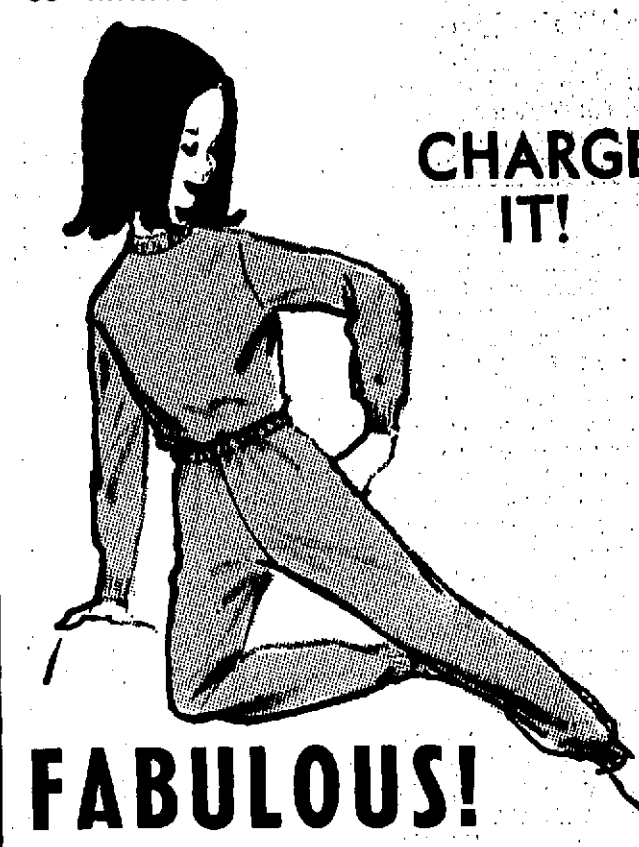

Working under supervision of their teachers, advanced high school science students here will make a working solar battery cell from raw materials. The cell will convert sunlight into usable electrical energy, just as solar cells are doing today on space satellites to provide power for electronic equipment inside the satellites.

Both the solar energy unit and teaching unit on magnetism are made available by Southwest Bell-Arkansas as part of its program to stimulate interest in scientific studies in secondary schools. Manager Dean Brown of the telephone company said.

The first settlement is what is now Franklin county, in 1816, where Mulberry creek flows into the Arkansas river.

were delayed Monday night by "heavy traffic" but were going through early today.

All naval vessels in the harbor at Mayport, near Jacksonville had gone to sea.

Unusual activity was reported at such big air bases as MacDill Field at Tampa, McCoy Air Force Base at Orlando and Homestead Air Force Base near Miami. The movement of troops and planes was cloaked in strict secrecy.

No security measures other than the usual tight arrangements were in effect at Cape Canaveral, the big missile test center 350 miles north of Key West, but jet planes were at Patrick Air Force Base, a few miles from the cape.

Florida's National Guard and civil defense units were placed on an alert status.

"There will be no calling out the National Guard," said Gov. Farris Bryant. "We anticipate no trouble. We want to be ready if anything should occur."

Col. H. W. Tarkington, Florida civil defense director, alerted all other.

county governments and civil defense organizations to be ready for "possible emergency action."

The Cuban Revolutionary Council in Miami called for "immediate military action to destroy the Soviet war apparatus in Cuba."

Disalle said he wanted the grand jury to investigate allegations that auditors and examiners employed by Rhodes had charged phony expenses to local government subdivisions and kicked back the money, in cash, to someone in the auditor's office.

Up until the time the charges started to fly, most observers had estimated Disalle and Rhodes were running a very close race for the 3,800 votes expected to be cast Nov. 6. Most were inclined to give Rhodes a slight edge.

What effect the eleventh-hour grand jury will have on the outcome no one seems to care to predict at the moment.

## Automobile Act Twice Thrown Out

**By JOHN R. STARR**

**LITTLE ROCK (AP)**—The argument over whether Arkansas needs regulation of its automobile sales industry has been a long and bitter one. Voters will have the final say Nov. 6 when they approve or reject Referred Act 199.

The act, passed by the 1961 Legislature, would create a seven-member state Motor Vehicle Commission with authority to license and regulate the manufacture, distribution and sale of motor vehicles.

Two previous legislature passed similar acts which were thrown out by the Arkansas Supreme Court.

The measure is favored by the Arkansas Automobile Dealers Association, which supported it in the General Assembly, and opposed by most independent auto dealers.

Petitions to refer it were circulated by independent dealers.

Since the act was placed on the ballot, little has been heard from proponents or opponents.

But a source close to the independent dealers says they can be expected to campaign against the act in the two week before the election.

Proponents told the legislature adoption of the act would halt many objectionable practices in the automobile industry. They said unreliable persons should be kept out of the business. Presumably the commission would see to this.

Opponents contend the automobile trade will operate better with out restrictions under unregulated free enterprise.

The commission would have authority to revoke licenses for infractions of its regulations. Expenses of the commission would be met with fees imposed on licensees. It would not be supported with tax funds.

The act provides for penalties ranging up to a \$500 fine and six months imprisonment for violation of its provisions.

## Political Pot Stirs in Ohio

**By ART PARKS**

**COLUMBUS, Ohio (AP)** The slew is getting mighty thick in Ohio's political pot.

With the election only two weeks away, the air is full of charges in the gubernatorial contest between Democratic Gov. Michael V. DiSalle and his Republican challenger, James A. Rhodes.

Those who know Ohio politics best seem to be unanimous in believing the DiSalle-Rhodes contest is the only real race in the Buckeye state this fall. All express belief Democratic Sen. Frank J. Lausche will be re-elected and Robert Taft Jr., son of the late "Mr. Republican," will be a shoe-in for Ohio's new Congress-at-large seat.

DiSalle, elected in 1958 as Ohio's first four-year-term governor, has had a sometimes stormy passage as he pushed through a tax-increase program and stumbled for more liberal state programs, especially in public and higher education and mental health. He started his campaign last May, shortly after the primary elections, in an obvious effort to goad GOP State Auditor Rhodes into a free swinging battle.

But Rhodes, so far at least, is having none of that campaign strategy. He lost a previous bid for the governor's chair in 1954 to Lausche who then was seeking the last of his five two-year terms in that office.

A special grand jury has taken the center of the political stage. It was impaneled last week on DiSalle's order after a series of stories published by a newspaper group charged influence peddling early in the DiSalle administration in getting liquor brands stocked in state monopoly stores. The newspaper group has endorsed Rhodes.

Scarcely was the special jury organized, however, before DiSalle announced he wanted it to investigate also some activities in Rhodes' office of state auditor over which he has presided 10 years.

DiSalle said he wanted the grand jury to investigate allegations that auditors and examiners employed by Rhodes had charged phony expenses to local government subdivisions and kicked back the money, in cash, to someone in the auditor's office.

Up until the time the charges started to fly, most observers had estimated DiSalle and Rhodes were running a very close race for the 3,800 votes expected to be cast Nov. 6. Most were inclined to give Rhodes a slight edge.

What effect the eleventh-hour grand jury will have on the outcome no one seems to care to predict at the moment.

**SAC's 144 combat-ready intercontinental ballistic missiles** were put on an increased alert.

U.S. ground, sea and air forces around the globe—including those in Berlin and West Germany—were ordered to be especially vigilant.

The Air Force sent more super-fast interceptor planes into better positions to defend the East Coast. At Patrick Air Force Base, near Cape Canaveral, Fla., a force of 3 jets concentrated—1,000-mile-an-hour F106s and 1,400-mile-an-hour F104s.

There was no overt threat to the U.S. naval base on Guantanamo Bay in eastern Cuba. But the United States got this vital outpost in fighting trim by shipping home an estimated 2,200 Navy wives and children and reinforcing the 3,300-man garrison of Navy men and Marines with perhaps 2,000 more Leathernecks.

The defense spokesmen made it plain that the drastic U.S. blockade action was triggered by confirmation that 1,200-mile-range mobile ballistic missiles were in place and actually threatening U.S. cities.

He showed reconnaissance photographs—blown up 30 times—and pointed out what he said were two missile launchers "aligned to a specific section of the United States." Nearby were missiles on trailers and trucks containing fuel for the weapons.

Some of these missile sites, by all indications, have become combat ready within the past week.

Reporters were shown a map of the Western Hemisphere with one circle indicating areas which could be brought under fire by these medium range weapons, and a wider area of the United States and Latin America that could be attacked by fixed-base missiles with a range of more than 2,500 miles.

Another factor entering into the arms blockade decision was the appearance of Soviet-made IL28 jet bombers—subsonic planes with a range of about 700 or 800 miles. These bombers had been introduced into Cuba in the past 10 days.

## U.S. Census Firm on Statement

**WASHINGTON (AP)**—The U.S. Census Bureau apologized to the Arkansas Chamber of Commerce Monday, but would not retract a statement that showed Arkansas would lose almost 20 per cent of its present population by 1980.

The bureau said, however, that the projection was one of four prepared by the bureau for a Senate committee in 1960.

The chamber protested a projection which appeared in national publications showing the state would lose from its population of 1,766,000 in 1958 to 1,437,000 by 1980.

The Census Bureau said other

projections, each based on different assumptions which might or might not prove correct, showed Arkansas variously having a 1980 population of 2,213,000; 1,192,000 or 1,932,000.

The bureau's apology concerned a typographical error in one of the projections that showed Mississippi's population would climb to 3,224,000 in 1980 while Arkansas was dropping to 1,437,000.

Dr. Conrad Taeuber, deputy director, said the Mississippi figure should have been 2,324,000.

The various projections, Taeuber said, are based on factors such as emigration and birth and death rates which may change before 1980.

## Tigers Get Beat in Their Homecoming

The Yerber Tigers were defeated in their homecoming game by Jones High School of North Little Rock, 26-13. Jones High scored late in the first quarter but failing the PAT to go ahead 6-0. The Yerber Tigers came back in the second quarter to score two TDs on a pass from QB Phillips to Williams for 30 yds. Just before the half Phillip scored from 20 yards out. The PAT was good and the half ended with the Tigers ahead 13-6.  
 Joe Daniels the Tigers center linebacker was injured on the first play of the game. He sustained a twisted ankle and will miss action in the next couple of games. The Tigers will miss him in their defensive strength up the middle.  
 In the second half the Dragons came on strong and the Tigers defense began to weaken, and was not able to contain the Dragons enabling Jones High to score three TDs. The second half was dominated by Jones High with the exception of a couple of threats by the Tigers which faltered, giving Jones a 26-13 victory.  
 The Tigers will journey to Wil-

## Unaware of Any 'Secret Agent'

LITTLE ROCK (AP)—Dr. Kenneth Jones, Republican candidate for the Senate, said Monday that he is unaware if any "secret agent" of the Americans for Constitutional Action is working for him in Arkansas. The ACA, a conservative organization, announced in Washington Sunday it had sent agents to help 46 unidentified conservative congressional candidates.

## Prejudice Plea Denied to Hoffa

WASHINGTON (AP)—James R. Hoffa Teamsters Union president was denied today a Supreme Court hearing on his complaint that President Kennedy and other government officials had prejudiced a grand jury against him.  
 The grand jury sitting in Orlando Fla. returned an indictment charging mail fraud against Hoffa had Robert E. McCarthy

## Full Slate in the Scrambled District 4-AA

By BILL C. SIMMONS  
 Associated Press Staff Writer  
 Three of the state's unbeaten Class AA teams put their records on the line Friday night, but only one of them appears in real danger of taking a loss.  
 That is Conway, which plays a Big Nine Conference team for the second weekend in a row.  
 And this time it won't be a hapless North Little Rock squad, which the wild-running Wampus Cats edged 14-13 last week.  
 Big, bruising Little Rock Central is the new opponent and would take the mightiest effort Conway could muster to bounce the Bengals.  
 Conway, the Region 3AA leader, has ripped through a string of Class AA foes, and Central has walloped everyone but Fort Smith, which tripped the Tigers early in the season.  
 Meanwhile Rogers of Region 1AA will go against Springdale and Helena will play Wynne. Neither Wynne nor Springdale present formidable opposition for Rogers of Helena, which is tied with Jonesboro for the Region 2AA lead. Jonesboro takes the weekend off.  
 Region 4AA, where the race has really been scrambled a couple of times, four games are on tap. They include Camden at Hope, Crossett at Smackover, Magnolia at Camden Fairview and Malvern steps out of the region against Sheridan.  
 Fayetteville will play a Missouri team—Springfield, this time—for the second week in a row. The Bulldogs nipped Joplin last week. And Siloam Springs will be at Harrison in the other Region 1AA battle.  
 Subiaco, a luckless Region 1AA team, does battle with Little Rock Catholic of Region 3AA this weekend, while Van Buren, also of 1AA, plays Morrilton, also of 3AA.  
 Other Region 3AA games send Benton against Jacksonville, Malvern to Sylvan Hills, and Russellville against Searcy.  
 West Memphis goes to Munford, Tenn., as a representative of Region 2AA, while the week's card is rounded out thusly:  
 Forrest City at Stuttgart, and Paragould at Pochontas.  
 Jr., a Detroit bank employee.  
 Justices White and Goldberg took no part in consideration of the Hoffa appeal.  
 Counsel for Hoffa and McCarthy asked dismissal of the indictment on the ground they were deprived of a fair grand jury "through the conscious and deliberate instigation of propaganda hostile" to Hoffa by officials of the federal government.  
 A statement made by Kennedy during a presidential campaign debate Sept. 2 1960 was offered in support of the dismissal request. Kennedy's statement the complaint said in substance was "I am not satisfied to see men like Hoffa be free."  
 Atty. Gen. Robert F. Kennedy the complaint added "has been deliberately fomenting inflammatory publicity. Mr. Kennedy has made public statements that he wants to see Mr. Hoffa rot in jail that he has enough evidence to convict him."

**TOUCHDOWN —** Tommy Ford (24), a Texas back, sticks his head back Arkansas defenders and over their goal line for a Texas touchdown in the final minute of the Longhorn-Razorback game in Austin. Texas won, 7-3.

### Rejoicing at Hardin-Simmons

ABILENE, Tex. (AP) — There was a holiday at Hardin-Simmons Monday—about the most significant holiday in the university's history, athletically speaking.  
 The football team had broken 27-game losing streak, just one shy of 28 straight set by Kansas State in 1945-46 and equaled by Virginia in 1958-60.  
 When Hardin-Simmons beat Trinity, Tex., University 14-7 Saturday night, there was great rejoicing. If the team hadn't done it then, there wouldn't have been much chance of accomplishing it this week against Arkansas.  
 But there was a lot of confidence that Hardin-Simmons would beat Trinity, the last team it defeated before the streak began.  
 Executive Vice President George Graham told the students there would be a holiday on Monday if the team won. The teachers told the students they should prepare their lessons for Tuesday classes since there wouldn't be any classes on Monday.  
 Coach Jack Thomas was asked how it felt to lead the football team out of its miseries.  
 "I felt that this team was determined to win this game matter what the odds might be," said the coach. "They had been building up to it for some time. They just had to win it. Any coach could have done it. It was the boys themselves."  
 You'd have thought there was a circus in town in the early morning hours of Sunday. There were more firecrackers than a July 4 celebration. The honking horns haven't been silenced yet.  
 Brockfield Farm picked up \$119,571 when intentionally won the 1958 Pimlico Futurity.

### Porkers Go Back to Work for Next One

FAYETTEVILLE, Ark. (AP) — The Arkansas Razorbacks return to the practice field today after a day off to recover from physical and psychological bruising sustained in Saturday night's 7-3 loss to Texas, the nation's No. 1 team.  
 Trainer Bill Ferrell said full-back Danny Brabham and line-backer Tommy Polk suffered the only real injuries in the Texas game.  
 Brabham bruised a hip and aggravated an old shoulder ailment. Polk suffered a hand cut which required stitches.  
 Broyles and his staff studied game movies and worked with the freshman team Monday. Broyles said he did not grade the films.  
 "I still feel the boys played one of their finest games," he said. "Travie Jerry Mazzanti played his best game ever. But all our seniors did. I'd hate to single out any one over another."  
 This week's foe is Hardin-Simmons University, which broke a long losing streak by beating Trinity University 14-7 Saturday. The Cowboys replace Ole Miss on the Porker mid-season slate.  
 Broyles said he wouldn't use any of his injured players against Hardin-Simmons unless they are fully recovered.  
 The injury list includes line-backer Billy Joe Moody, hurt against Texas Christian, and tail-back Jim Worthington, still nursing a foot injury.

## Texas Keeps First, Porks Drop a Notch

By THE ASSOCIATED PRESS  
 Texas clung to the lead today in The Associated Press' weekly football poll of sports writers and sportscasters in a tight battle with Alabama. It was the second consecutive week for Texas on top of the heap and the second runner-up week for Bear Bryant's Alabama team.  
 Northwestern shouldered into the higher echelon by upsetting Ohio State, moving from eighth to third place. Ohio State, beaten twice, became the first former leader of '62 to drop completely out of the top ten.  
 Texas had its hands full with Arkansas, winning 7-3 on a late touchdown after the Razorbacks fumbled away a touchdown on the goal line. Alabama ran over Tennessee as expected 27-7.  
 Despite a 32-6 victory over California, Southern California slipped to fourth. Wisconsin hopped all the way from 10th to fifth on the strength of a 42-14 romp over Iowa.

The top ten clubs with first-place votes in parentheses—points or a 10-0-0-76-4-32-1 basis:  
 1. Texas (23) 491  
 2. Alabama (18) 465  
 3. Northwestern (8) 390  
 4. Southern California (1) 363  
 5. Wisconsin (1) 279  
 6. Louisiana State 232  
 7. Mississippi (1) 228  
 8. Washington 170  
 9. Arkansas 82  
 10. Michigan State 79
